24/3/20

To All Retailers & Providers

Due to the escalation in the COVID-19 pandemic, Newcastle Markets will be making changes to the operations of the market.

From Monday 30th March 2020, face to face sales with customers will cease for the foreseeable future.

No retailer or providore will be permitted entry to the main trading floor area. Those providore that are tenants of the market are requested to remain in their lease premises.

All orders will need to be place directly with the wholesalers via email, text etc.

Please make these arrangements directly with your wholesaler.

Because of these changes the market will be cashless. All payments will need to be made electronically. (OSKO for cash sales)

Public sales each Friday will also cease.

We are making these changes for the health of all staff and market users, and to ensure that the markets can continue to service the needs of the community and businesses.

We hope you understand this decision and thank you in advance for your cooperation.
