06/08/2021

To All Buyers/Retailers & Providers

Due to the escalation in the COVID-19 cases in our local area and the current lockdown, Newcastle Markets will be making changes to the operations of the market.

From Monday 9<sup>th</sup> August 2021, face to face sales with all customers will cease, until further notice

No retailer/buyer or providore will be permitted entry to the main trading floor area.

Those Providers that are tenants of the markets are requested to remain in their leased premises.

All orders will need to be place directly with the wholesalers via email, text etc.

Please make these arrangements directly with your wholesaler, also check with your wholesaler re preferred payment methods

Public sales each Friday will also cease.

We are making these changes for the health of all staff and market users, and to ensure that the markets can continue to service the needs of the community and businesses.

We hope you understand this decision and thank you in advance for your cooperation.
